

Osman Environmental Solutions, LLC

Overview of Services

Osman Environmental Solutions (OES) is an environmental consulting company that specializes in air quality, litigation support, and waste management issues. We strive to bring to our clients a unique mix of technical and regulatory knowledge to assist them in managing their environmental risk. What sets us apart from many environmental firms is our flexibility in that we can work with you in almost any capacity.

OES provides consulting services for a wide variety of clients, ranging from Fortune 500 companies to individually-owned facilities. Types of services we provide include:

- Air Quality Permitting
- Litigation Support/Expert Testimony
- Energy Projects
- Alternative Fuels
- Continuous Emissions Monitoring Systems
- Client Rehabilitation/Negotiating with Regulators
- Waste Services

At OES, our goal is to work with you as a business partner to help you manage your environmental risk in a manner that is most beneficial to your organization.
